

Do you have a child with a special need? Do you need child care?

**LOCATE: Child Care
can help you find child care that meets your family's needs.**

LOCATE: Child Care is a free service available to parents made possible through funding from the Maryland State Department of Education's Infant and Toddler Program. LOCATE has a complete database of all licensed family child care providers and child care centers.

LOCATE Counselors, with backgrounds in early childhood education, gather information about your child care needs, then contact family child care providers and programs to find openings or inquire about future availability.

LOCATE will refer you to child care providers and programs who are willing to accommodate your child's special needs.

Your LOCATE counselor can also provide you with information on:

- State licensing regulations
- Identifying quality child care
- Strategies on how to select a child care provider

For more information, call today!
